The Math is Done for You!

Sometimes when you just want to finish your quilt, the last thing you want to do is a bunch of math. We've created this handy table with the math already done for several common block sizes.

Finished Block Size	Corner Triangles	Side Triangles
1.5"	2"	3-3/8"
2"	2-3/8"	4-1/8"
2.5"	2-3/4"	4-7/8"
3"	3"	5-1/2"
3-1/2"	3-3/8"	6-1/4"
4"	3-3/4"	7"
4-1/2"	4-1/8"	7-5/8"
5"	4-1/2"	8-3/8"
5-1/2"	4-7/8"	9-1/8"
6"	5-1/8"	9-3/4"
6-1/2"	5-1/2"	10-1/2"
7"	5-7/8"	11-1/4"
8"	6-5/8"	12-5/8"
9"	7-1/4"	14"
10"	8"	15-1/2"
11"	8-3/4"	16-7/8"
12"	9-3/8"	18-1/4"
13"	10-1/8"	19-3/4"
14"	10-7/8"	21-1/8"
15"	11-1/2"	22-1/2"
16"	12-1/4"	23-7/8"
17"	13"	25-3/8"
18"	13-5/8"	25-3/8"
19"	14-3/8"	28-1/2"
20"	15-1/2"	29-5/8"

If you choose to use over-sized setting triangles, remember to use the measurements above as your minimum size. Once your quilt top is pieced, then square it up to remove the excess fabric.
